

# FORET MARTEAU SDS+ 2 TAILLANTS "83000"

## ALPHA COUPE

Applications : béton, aggro  
avec pointe de centrage et double goujure  
nuance : HM/TCT/MD.

### Caractéristiques

| Référence | longueur totale (mm) | longueur utile (mm) | Ø (mm) | Prix HT |
|-----------|----------------------|---------------------|--------|---------|
| 10539182  | 110                  | 50                  | 4      | -       |
| 10539186  | 110                  | 50                  | 5.5    | -       |
| 10539188  | 110                  | 50                  | 6      | -       |
| 10539183  | 110                  | 50                  | 5      | -       |
| 10539184  | 160                  | 100                 | 5      | -       |
| 10539189  | 160                  | 100                 | 6      | -       |
| 10539187  | 160                  | 100                 | 5.5    | -       |
| 10539201  | 110                  | 50                  | 8      | -       |
| 10539196  | 110                  | 50                  | 7      | -       |
| 10539192  | 110                  | 50                  | 6.5    | -       |
| 10539193  | 160                  | 100                 | 6.5    | -       |
| 10539197  | 160                  | 100                 | 7      | -       |
| 10539202  | 160                  | 100                 | 8      | -       |
| 10539208  | 110                  | 50                  | 10     | -       |
| 10539185  | 210                  | 150                 | 5      | -       |
| 10539207  | 160                  | 100                 | 9      | -       |
| 10539209  | 160                  | 100                 | 10     | -       |
| 10539190  | 210                  | 150                 | 6      | -       |
| 10539194  | 210                  | 150                 | 6.5    | -       |
| 10539198  | 210                  | 150                 | 7      | -       |
| 10539203  | 210                  | 150                 | 8      | -       |
| 10539216  | 160                  | 100                 | 12     | -       |
| 10539210  | 210                  | 150                 | 10     | -       |
| 10539191  | 260                  | 200                 | 6      | -       |
| 10539195  | 260                  | 210                 | 6.5    | -       |
| 10539215  | 210                  | 150                 | 11     | -       |
| 10539204  | 260                  | 200                 | 8      | -       |
| 10539217  | 210                  | 150                 | 12     | -       |
| 10539199  | 260                  | 210                 | 7      | -       |
| 10539222  | 160                  | 100                 | 13     | -       |
| 10539225  | 160                  | 100                 | 14     | -       |
| 10539211  | 260                  | 200                 | 10     | -       |
| 10539223  | 210                  | 150                 | 13     | -       |
| 10539226  | 210                  | 150                 | 14     | -       |
| 10539218  | 260                  | 200                 | 12     | -       |
| 10539235  | 160                  | 100                 | 16     | -       |
